History

In 1605, Samuel de Champlain is said to have landed here and exchanged gifts with the <u>Indians</u>. Situated on the tidal Sheepscot River, Wiscasset was first settled by Europeans in 1660. The community was abandoned during the French and Indian Wars, and the King Philip's War in 1675 and then resettled around 1730. In 1760, it was incorporated as Pownalborough after Colonial Governor Thomas Pownall. In 1802, it resumed its original Abenaki name, Wiscasset, which means "coming out from the harbor but you don't see where."^[4]

During the Revolutionary War, the British warship *Rainbow* harbored itself in Wiscasset Harbor and held the town at bay until the town gave the warship essential supplies.

In 1775, Captain Jack Bunker supposedly robbed the payroll of a British supply ship, *Falmouth Packet*, that was stowed in Wiscasset Harbor. He was chased for days and caught on Little Seal Island. His treasure reportedly has never been found.

The <u>seaport</u> became a center for <u>shipbuilding</u>, fishing and <u>lumber</u>. Wiscasset quickly became the busiest seaport north of Boston until the embargo of 1807 halted much trade with England. Most of Wiscasset's business and trade was destroyed. [4]
